ANDAMAN SAILS

Beyond the Horizon

Beyond the Horizon, the journey never ends.

Inspired by the Andaman Sea, Beyond the Horizon is a passage into the unknown—a surrender to the rhythm of wind and tide, where movement is constant, and becoming never ceases.

The sea sways without hesitation. The horizon stretches without end. Neither waits, neither wavers. And neither do you.

You step forward, not because the path is clear, but because something within you knows—you are meant to go.

**Bergamot
Green Tea**

Crisp · Breezy · Serene

Secluded in the splendor of silence; just the serenity of the waves, the emerald waters and the sound of sunrays touching the skin. Andaman Sails navigates the senses with a brisk brew of uplifting Bergamot, Green Tea and Nutmeg, atop a comforting billow of Sandalwood, conjuring glimpses of endless summers, white sand between toes, and familiar hymns of the inviting sea.
